Kaytee Quality Assurance

Kaytee Products Inc. is committed to providing the highest quality foods and services for people's enjoyment of birds. Kaytee is very proud of the long-term relationships we have built with our customers. Birding enthusiasts trust Kaytee to provide food that will attract wild birds to their feeders and supply them with the nutrition they need. Kaytee® wild bird products contain only clean, fresh seeds and grains of consistent quality that are properly formulated to attract specific birds.

Single Seed & Grains

Black Oil Sunflower

Kaytee® Black Oil Sunflower is the best single grain for attracting the widest variety of wild birds.

- High oil content is a great source of energy
- Thinner hulls make it easier to eat
- Appealing to smaller songbirds including pine siskins, nuthatches, cardinals, finches, grosbeaks and chickadees

Sunflower Hearts & Chips

Sunflower seeds are highly nutritious and attract more birds than any other seed.

- They are 100% edible and an excellent food for year-round feeding

- Kaytee® Sunflower Hearts & Chips have the added benefit of having the hulls removed, making the seeds easier for birds to eat
- Without hulls, there is less mess under feeders and unwanted growth in yards and flower beds

Striped Sunflower

Kaytee® Striped Sunflower Seeds are a highly nutritious food, rich in oil which provides an excellent energy source.

- Appeals to larger birds like blue jays, woodpeckers, grosbeaks and cardinals that enjoy cracking through the hard outer shell.
- Striped Sunflower Seeds are larger in size and have a harder shell than Black Oil Sunflower Seeds.

Specialty Single Seed & Grains

Kaytee offers a wide selection of individual grains and seeds that attract a variety of backyard birds.

- Cracked corn is a high-energy food eaten by many birds, including indigo buntings, blue jays, mourning doves and woodpeckers

- Peanuts provide high levels of fat and protein, which are important in the diets of many backyard birds. Fat provides needed energy, while protein promotes growth and good health

- Safflower is a high oil content seed that is very desirable to songbirds, yet tastes bitter to squirrels
