OUTSIDE HOME INSTRUCTIONS

STEP 1: Connect the Loop-d-Loop Top **(A)** and the Loop-d-Loop Bottom **(B)** by snapping together.

STEP 2: Tighted the Loop-d-Loop Screw **(C)** in place to lock the Loop-d-Loop Top **(A)** and Loop-d-Loop Bottom **(B)** together.

STEP 3: Next, using a Connector Ring **(D)** attach the Fun-nel® Bubble Plug **(J)** to the top of the assembled Loop-d-Loop.

STEP 4: Using a Connector Ring **(D)**, attach the 3.5" Fun-nel® Straight Tube **(E)** to the assembled Loop-d-Loop.

STEP 5: Using another Connector Ring **(D)**, attach the 3.5" Fun-nel® Tube with Support Rings **(F)** to the 3.5" Fun-nel® Straight Tube **(E)**.

STEP 6: Place the assembled top portion through the top access hole of the home. The CritterTrail® Loop-d-Loop is designed to be attached through the CritterTrail® habitat by punching out one of the ports in the roof.
Note: DO NOT punch out access holes until you are ready to expand your pet's home. Access holes CANNOT be closed once opened.

INSIDE HOME INSTRUCTIONS

STEP 7: Attach a Connector Ring **(D)** to the Fun-nel® J Tube **(G)**.

STEP 8: Place the Fun-nel® J Tube **(G)** through the front door of the home and attach the Fun-nel® J Tube **(G)** to the end of the 3.5" Fun-nel® Tube with Support Rings **(F)**.
Note: If the Loop-d-Loop is used in a home with shelves, it may be necessary to move the shelf down so that it does not touch the Fun-nel® J Tube (G).

SIDE ACCESSORY INSTRUCTIONS

STEP 9: Assemble the Fun-nel® tubes to create an oval shape (see illustration). Attach the assembled Fun-nels® to any side opening on the home.
