OUTSIDE HOME INSTRUCTIONS

- STEP 1:** Connect the Loop-d-Loop Top (A) to the Loop-d-Loop Bottom (B) by snapping together.
- STEP 2:** Tighten the Loop-d-Loop Screw (C) in place to lock the Loop-d-Loop Top (A) and Loop-d-Loop Bottom (B) together.
- STEP 3:** Next, using a Connector Ring (D) attach the Fun-nel® Bubble Plug (G) to the top of the assembled Loop-d-Loop.
- STEP 4:** Using a Connector Ring (D), attach the Fun-nel® Tee (H) to the assembled Loop-d-Loop.
- STEP 5:** Using another Connector Ring (D), attach the 3.5" Fun-nel® Tube with Support Rings (E) to the Fun-nel® Tee (H).
- STEP 6:** Assemble the Outhouse Top (I) and the Outhouse Bottom (J) by snapping together. Attach the assembled Outhouse to the side opening of the Fun-nel® Tee (H).
- STEP 7:** Place the assembled top portion through the top access hole of the home. The CritterTrail® Activity is designed to be attached through the CritterTrail® habitat by punching out one of the ports in the roof.
NOTE: DO NOT punch out access holes until you are ready to expand your pet's home. Access holes CANNOT be closed once opened.

INSIDE HOME INSTRUCTIONS

- STEP 8:** Attach a Connector Ring (D) to the Fun-nel® J Tube (F).
- STEP 9:** Place the Fun-nel® J Tube (F) through the front door of the home and attach the Fun-nel® J Tube (F) to the end of the 3.5" Fun-nel® Tube with Support Rings (E).
Note: If the Activity is used in a home with shelves, it may be necessary to move the shelf down so that it does not touch the Fun-nel® J Tube (F).

SIDE ACCESSORY INSTRUCTIONS

- STEP 10:** Unwrap the pre-assembled Snap-on Comfort Wheel (K) and attach to any side opening in the home.
NOTE: It may be necessary to disassemble the Snap-on Comfort Wheel (K) and attach the inner part to the home first. If this is needed, be sure to brace the side of the home from the inside during attachment of inner part.
